THIS JUST IN!

Dear Sonic Readers,

The terrible tragedy that took place on September 11, 2001, affected us all very deeply.

Visit our website at archiecomics.com and join us to create a **"World Together Center."** After you visit our website, please e-mail us your thoughts or send in your drawings.

NEXT ISSUE: I'd say what's going to be in this issue, but no one told me anything about it. I guess they wanted to surprise even me along with the rest of you guys. Nah, just kidding. Actually, the Overlanders discover

something really terrifying about Robotnik as a long-time character undergoes a most unexpected development that even Sonic can't believe. If I told you more, Karl and Ron would be very unhappy. Also, the conclusion to the Downunda saga by Mike G. and Nelson.

AND NOW, IT'S TIME TO CHECK THIS MONTH'S MAIL:

Dear Sonic crew,

Great Sonic Issue! Every one of your issues is outstanding!! The quality is high! Here is my rating.

CHRISTOPHER PRICE

Kager Ebert himself couldn't have said it better, Chris!

Dear Mr. Penders,

I just read Sonic #101. I loved it! Great job with the different realities (especially the Sonic anime movie, and where Sally died [not here being dead, but everyone in black]). The "Sega-Data Files" are a REAL good idea, too! About Sonic and friends "nat" in clothes, I saw a Wife E. Coyote cartoon where the bottom half of his fur was ripped off, and he was wearing boxers (Feghorn Leghorn, too). So, one could say that a cartoon's fur is his/her clothes. One last thing, I'm happy for Dawn Best, and glad to have a (slight) chance to work on Sonic in the future.

~RASPLE ZISKUNK

(This is my "Mobian" name)

Personally, I always thought the dress code on Mobius was different from ours and simply chalked it up to that. Glad you enjoyed the issue!

Dear Sonic Team,

After thumbing through SONIC #101, I can understand why some fans don't like Knuckles' reason for working with Dimitri. Some seem to think that Tobor didn't exhibit hatred. Some hatred isn't visible or even conscious. This is especially true if the hatred has been passed down from generation to generation. Knuckles, coming into his power, probably sensed this deep, underlying feeling in Tobor and in himself, was disgusted and wanted to change that feeling. Plenty of my friends have commented that they didn't like how Dimitri first said that Knuckles could change any time and then later how he only had two chances left. While this may seem contradictory, it is a brilliant plan by Dimitri, who probably realized that he couldn't control Knuckles from the outset and took into account Knuckles' hotheaded, do-it-yourself ways and let him do as he felt necessary. Thus when Knuckles failed, he would come straight back to Grand-uncle Dimitri and ask for what points in time he could change. Dimitri could then pick what events would change and rule the world. Finally, Dawn Best. Nice work. She is definitely a talented artist. Her drawings helped convey the words instead of just standing there saying things totally unrelated to their body language.

What I saw was brilliant. It is also good to see that dreams can come true in this cynical world where dreams are often forgotten, misplaced, or destroyed. Thank you.

IAN POTTO

We think Dawn's work is wonderful, and so did a lot of other readers as well, as evidenced from the following comments.

Dear guys,

Tell Dawn Best that she is very talented and that she should do more in future issues.

MACKLIN XU

Dear Editor,

What can I say! I LOVE Dawn's art ^_^ However, some of the panels are off—mostly Julie-Su's facial expressions. I think Dawn was going for a mad look on page 1, panel 1, but Julie-Su looks more manga-happy than mad. Most other panels show the emotion REALLY WELL.

BUNE

Dear Ken,

I finally got my copy of Sonic #101 this weekend. Dawn's work was smashing. I liked the way she drew the characters to fit the words they were saying and the personality they supposedly have instead of just propping them on the panel and having them say something by word balloon. I also liked the way you drew Dimitri. His design has been a pain to see up until your drawing. The other artists either drew him in full detail like a cross among a network server and a refrigerator and a schematic or like a modified, simplified SWATbot. I liked the way you simplified him without losing the details that make him Dimitri.

!!

Ken and company,

I must say that Dawn Best's backup debut was absolutely fantastic. The characters were on-model, with lots of great expressions, the backgrounds were dead-on, etc. It was probably the best artwork I've seen in Sonic outside of Spar and Steven Butler, and I hope she continues on to be a regular.

DANE MARTIN

Dear Justin and Ken,

After reading Sonic #101, I knew I had to respond. As always, Sonic's story is going strong and I can't wait to find out what happens next, you have me hooked! The reason I had to write is (of course) the new Knuckles artist, Dawn Best!! Her style

suits Knuckles and brought my interest back to his story. Her work is great, but what is even better is the success story that came with her. As an aspiring artist (of 16) who has always wanted to work on the Sonic comics I'm inspired to keep at it, and maybe someday, I can find my way into the Archie offices. I can't wait to see more of her work and the rest of Knuckles current storyline!

JORDAN MILLS

Dear Sonic-Grams,

Way to go, Dawn!! "Muff Said!"

Argentum

And finally, we have a reader who made my fellow writer's day, so much so that Karl couldn't resist replying after seeing the following:

Dear Sonic-grams,

Now that was different. SONIC #101, that is. To have the FFs realize that someone is messing with time without figuring out who (that's something I don't think they're going to know for awhile). The other point was to put to rest the idea that Nate didn't get robotized in #100 since we didn't "see" it happen. Those were the only real points of the Sonic story. It was basically a fun story to relax and not have to deal with heavy plot points which Sonic has had in the prior two issues and countering the heavy plot points being dropped in the Knux story. I thought it was a nice way of doing it going through all those "what if's." I also enjoyed the Sal/Knux pairing "what if."

TRUE RED

Thanks, True Red! Glad you liked it. The point of the exercise is as you stated, plus I wanted to give the various Sonic fans their favorite versions of Sonic (if only for a few pages).

CHECK BACK WITH US NEXT TIME FOR MORE COMMENTS, COMPLIMENTS AND CRITICISMS. TAKE CARE.
